

STUDENT EMPLOYMENT

REMOTE WORK IDEAS FOR STUDENT EMPLOYEES

Track work! Keep track of what your student employees are doing, a spreadsheet with a brief overview of the work completed that day should be enough. Set up expectations with your student employee. Utilize Teams! You can upload documents and chat with your student using teams. Our university already pays for this. We recommend a daily check in to stay connected to your team and find out what work is in progress. This can be as short as five or ten minutes or as long as necessary. Work with your team to decide what is best.

SHARED EMAIL BOX

Respond to inquiries Send out to appropriate contacts access through web-based email. NOTE: May need to request access through IT self-service ticket.

DATA ENTRY

This may require a trip to the office to scan documents & send to students
